Get Those Records Off the Shelf

Record Fountain

What You Need

2 Records

Oven

Pie plate

Glass drinking glass

Gloves, cotton

Fountain pump (smallest available)

Water

Glue, waterproof

2 flat items about 2" in diameter (plastic, metal or glass - this is used to cover the holes in the record)

Tube to fit on pump

Hot pads

Knife

Filler, marbles, waterproof game pieces

How to Make It

1. Preheat oven to 200 degrees.
2. Turn pie plate upside down. Center record on top. Place in oven for 3-5 minutes. Ovens vary so keep an eye on it. Record is ready when pliable.
3. Wearing gloves and using hot pads, remove from oven and place record inside pie plate to form. Let set until hard. It won't take very long.
4. Repeat with record over the glass except when removed from oven, leave record on glass to cool.
5. Glue flat objects over holes in records. Let dry.
6. Place tall record piece in shallow record. If pump is adjustable, use at lowest setting. Place pump in tall piece. Cut tube to slightly lower than rim of record. Cover pump with water. Test pump. Fill pump area with desired filler objects.
